Town of Bethlehem RFP NO. CSP1

Weekly Curbside Trash AND Recycling pick up in the Town of Bethlehem with recycling delivered to the transfer station sorted and MSW delivered to Mt Carberry Landfill in Berlin, NH: \$4,800/weekly, \$249,600 annually.

Weekly Curbside TRASH ONLY pick up with MSW delivered to Mt Carberry Landfill in Berlin, NH: \$3,900/weekly, \$202,800 annually.

This price would be valid for the entirety of the three year contract. Residents would have to supply their own cans/recycling containers. Recyclable materials would be as follows: #1 Plastics, #2 Plastics, Glass, Tin & Aluminum Cans, Newspapers & Magazines, Cardboard (Broke down flat). We do not have the ability to do zero-sort, therefore, we would separate recycling as it is picked up. If residents chose, they can separate their recycling, but this is not required. However, we require glass to be separate from other recycling due to the risk of injury to employees with broken glass mixed in with other materials. We would request that household trash be bagged as this minimizes any trash from blowing out of our packer trucks and causing litter.

We would request trash and/or recycling pickup begin at 6:30 am, if possible. This ensures that we can complete the route in a timely manner in the case of bad weather, minor breakdowns, etc. If awarded the contract, we would begin by utilizing two days for pickup – Wednesday and Thursday. We would inform the town before the start of the contract as to which roads/streets are being picked up on each day. If we find that we are completing the routes fairly early on each day, we may decide to complete pickup of the entire town on one day (Wednesday), if the selectboard approves.

Transportation of municipal waste from Bethlehem Transfer Station to Mt Carberry Landfill, Berlin, NH: \$500 per load plus a monthly rental fee of \$100. We would provide 30-40 yard closed top containers – we would swap them out with an empty one when full.

Transportation of bulky waste from Bethlehem Transfer Station to Mt Carberry Landfill, Berlin, NH: \$500 per load plus a monthly rental fee of \$100. We would provide 30-40 yard open top containers – we would swap them out with an empty one when full.

Transportation of metal from Bethlehem Transfer Station to metal recycling facility: \$500 per load plus a monthly rental fee of \$100 (hauling within a 35 mile radius). We would provide 30-40 yard open top containers – we would swap them out with an empty one when full.

Please feel free to reach out to us with any questions. Thank you for giving us the opportunity to submit a proposal. We look forward to hearing from you.

Sincerely,
